

ABUNDANCIA DE APELLIDOS EN NICARAGUA

La fuente original de donde se extrajeron los datos lista 13,433, pero se logró reducir a 7,036 apellidos eliminando los errores obvios como Bermudesz en vez de Bermúdez. La frecuencia de los apellidos desechados fueron sumados al apellido correctamente escrito.

Esta reducción representa un 47.6% de entradas malas en el archivo original. En todo caso los apellidos eliminados son de muy baja frecuencia, de manera que no afectan la abundancia general.

En el caso de la página ‘Frecuencia de apellidos’ la búsqueda se hace en un archivo que contiene los 13,433 apellidos originales, aunque para desplegar los resultados, se han eliminado los municipios con menos de 5 personas.

Este archivo PDF permite hacer búsquedas del apellido. Al hacerlo, no use acentos porque el archivo original no los tiene como puede comprobar con solo inspeccionar el primer apellido de la lista LOPEZ, escrito sin acento en la O.

El archivo fue preparado con datos de 2001.

ABUNDANCIA DE LOS APELLIDOS EN NICARAGUA
Ordenados del más al menos frecuente

Apellido	Frecuencia del apellido	Número de Orden	Frecuencia por cada cien mil
LOPEZ	109,740	1	3,669.78
MARTINEZ	74,235	2	2,482.47
